FORWARD LOOKING STATEMENTS

Certain statements contained herein are "forward-looking statements" within the meaning of applicable securities laws and regulations. These forward-looking statements can generally be identified by the use of words such as "anticipate," "expect," "believe," "could," "estimate," "feel," "forecast," "intend," "may," "plan," "potential," "project," "should," "will," "would," and similar words, phrases or expressions and variations or negatives of these words, although not all forward-looking statements contain these identifying words. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements regarding the estimated or anticipated future results of the combined company following the combination of Keurig Green Mountain, Inc. ("KGM") and Dr Pepper Snapple Group, Inc. ("DPSG" and such combination, the "merger"), the anticipated benefits of the transaction, including estimated synergies and cost savings, and other statements that are not historical facts. These statements are based on the current expectations of our management and are not predictions of actual performance.

These forward-looking statements are subject to a number of risks and uncertainties regarding the combined company's business and the combination and actual results may differ materially. These risks and uncertainties include, but are not limited to: (i) the impact the significant additional debt incurred in connection with the transaction may have on our ability to operate our combined business, (ii) risks relating to the integration of the KGM and DPS operations, products and employees into the combined company and assumption of certain potential liabilities of KGM and the possibility that the anticipated synergies and other benefits of the combination, including cost savings, will not be realized or will not be realized within the expected timeframe, (iii) our status as a "controlled company" within the meanings of the New York Stock Exchange, including our reliance on exemptions from certain corporate governance standards and the significantly less influence that our pre-transaction holders now have on our company, and (iv) risks relating to the combined businesses and the industries in which our combined company operates. These risks and uncertainties, as well as other risks and uncertainties, are more fully discussed in our definitive proxy statement filed with the SEC on May 29, 2018, our Current Report on Form 8-K filed with the SEC on July 9, 2018, and our subsequent filings with the SEC.

While the lists of risk factors presented here and in our public filings are considered representative, no such list

should be considered to be a complete statement of all potential risks and uncertainties. Any forward-looking statement made herein speaks only as of the date of this document. We are under no obligation to, and expressly disclaim any obligation to, update or alter any forward-looking statements, whether as a result of new information, subsequent events or otherwise, except as required by applicable laws or regulations.

NON-GAAP FINANCIAL MEASURES

This release includes certain non-GAAP financial measures, which differ from results using U.S. Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures should be considered as supplements to the GAAP reported measures, should not be considered replacements for, or superior to, the GAAP measures and may not be comparable to similarly named measures used by other companies. Non-GAAP financial measures typically exclude certain charges, which are not expected to occur routinely in future periods. The Company uses non-GAAP financial measures internally to focus management on performance excluding these special charges to gauge our business operating performance. Management believes this information is helpful to investors because it increases transparency and assists investors in understanding the underlying performance of the Company and in the analysis of ongoing operating trends. Additionally, management believes that non-GAAP financial measures are frequently used by analysts and investors in their evaluation of companies, and its continued inclusion provides consistency in financial reporting and enables analysts and investors to perform meaningful comparisons of past, present and future operating results.
